

Solution Wipes™

Build your Own Wet Wipe System

In Bags

- Add your own bleach or sanitizer for custom wet wipes.
- Reduce chemical spills and volatile organic compounds (VOC's) vs. spray system.
- More uniform application than shop towels with sprays.
- Avoid hazardous and unsanitary problems with open bucket sanitizing.

APPLICATIONS:

- Non-porous surface sanitizing
- Surface preparation
- Maintenance cleaning
- Paint preparation and cleaning
- Removal of transport coatings and lubricants
- Lubricant delivery
- And many more

CASE CONTAINS:

- 6 rolls of center pull-up wipes compatible with chemicals that are needed to fight COVID-19
- 6 poly bags
- 6 labels to be applied to bag on site
