

GLYBET™

Disinfectant • Deodorant • Citrus Bouquet

This disinfectant spray is ideal for many surfaces and as an air deodorizer. Its quaternary compound base and 'fresh and clean' scent make it perfect for restroom sanitation. Effective against a wide variety of microorganisms including Salmonella, Pseudomonas and Herpes Simplex Type 1 & 2. It is also fungicidal against pathogenic fungi and prevents mold and mildew growth. Eliminates airborne malodors. **Residual self-sanitizing activity controls growth for 5 days after application on surfaces that are reasonably assumed to become wet (e.g. shower rooms). Contains no ozone depleting CFC's.

Uses

- All airborne odors
- Diaper pails
- Door knobs
- Flush handles
- Light switches
- Linen carts & hampers
- Restroom fixtures
- Sinks
- Toilet seats
- Trash containers
- Walls
- Waste baskets

Benefits

- Disinfects hard surfaces.
- Kills Herpes Simplex Type 1 & 2, Salmonella, and Pseudomonas.
- Fungicidal against pathogenic fungi, mold and mildew.
- **Residual self sanitizing activity controls microbial growth on treated surfaces for up to 5 days after application.
- Eliminates airborne malodors and kills odor causing bacteria at their source.
- Dispenses an ultra-fine spray.
- No CFCs. Federal regulations prohibit the use of CFC propellants in aerosol formulations.

Properties

| | |
|---|-----------------|
| Appearance..... | Clear |
| Flammability..... | Flammable |
| Fragrance..... | Fresh and clean |
| pH..... | N/A |
| Residue..... | Self-sanitizing |
| Rinsability..... | Excellent |
| Shelf life..... | 1 year |
| Spray pattern..... | Ultra fine mist |
| Storage stability..... | 120°F maximum |
| ACTIVE INGREDIENTS: | |
| n-Alkyl (60% C14, 30% C16, 5% C12, 5% C18) | |
| dimethyl benzyl ammonium chloride..... | 0.2% |
| n-Alkyl (68% C12, 32% C14) | |
| dimethyl ethylbenzyl ammonium chloride..... | 0.2% |

Directions For Use

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. When used as directed, this disinfectant/deodorant demonstrates effective disinfection against Salmonella choleraesuis and Pseudomonas aeruginosa. This product is effective against Trichophyton mentagrophytes (agent that causes Athlete's Foot Fungus), when used as directed on hard, nonporous surfaces found in bathrooms, showers, locker rooms, or hard, nonporous surfaces commonly contacted by bare feet. Mold and Mildewstat: This disinfectant/deodorant has been designed specifically for non healthcare institutions, offices, schools, and motels for use on hard, nonporous surfaces such as linen carts, door knobs, hampers, light switches and garbage pails. SURFACE DISINFECTION AND DEODORIZATION: (1) Preclean all surfaces to be disinfected. (2) Hold can six inches from surface and spray until completely wet, allowing the surface to remain wet for 10 minutes. Allow to air dry. AIR DEODORIZER AND AIR REFRESHENER: Point spray upwards to center of room and spray for three seconds. MILDEWSTAT: To control mold and mildew on hard, nonporous surfaces (such as floors, walls, table tops), spray the surfaces to be treated, making sure to wet completely. Let air dry. Repeat application at weekly intervals or when mildew growth reappears. *VIRUCIDAL PERFORMANCE: This product was evaluated and found to be effective against Herpes Simplex Type 1 (virus that causes cold sores) and Herpes Simplex Type 2 (virus that causes venereal disease) on precleaned, hard, nonporous, inanimate environmental surfaces for a contact time of 10 minutes. **RESIDUAL SELF-SANITIZING ACTIVITY: This product has been evaluated and found to have residual self-sanitizing activity in 5 minutes on precleaned, hard, nonporous, inanimate environmental surfaces. This residual sanitizing activity is applicable to surfaces that are reasonably expected to become wet under normal conditions such as shower and restroom fixtures. This residual self-sanitizing activity will continue for 5 days or until the surface is rinsed or cleaned.

Safety

Keep out of reach of children. For institutional and commercial use. **WARNING:** Causes eye and skin irritation. Do not get in eyes, on skin, or on clothing. Harmful if swallowed. **FIRST AID STATEMENT**
IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless instructed to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. **IF ON SKIN OR ON CLOTHING:** Take off contaminated clothing. Rinse skin with plenty of water for 15 to 20 minutes. Call a poison control center or doctor for treatment advice. **IF INHALED:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth if possible. Call a poison control center or doctor for further treatment advice. **IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15 - 20 minutes. Remove contact lenses, if present after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment. **PHYSICAL OR CHEMICAL HAZARDS**
 Contents under pressure. Keep away from heat, sparks, and open flame. Do not puncture or incinerate container. Exposure to temperatures above 120°F may cause bursting.
